Over the past 50 years and across the Christian community in the UK, there have been wide ranging discussions of urban theology and the emergence of a variety of initiatives in urban mission and ministry. These discussions and initiatives led up to and followed on from the centrally important publication of *Faith in the City* in 1985.

During the coming year, CCFUM and CTE will be sponsoring a series of events in which Christians may come together to reflect on the past, attempt to 'read the signs of the times' and discern how we are being called to live and work in the future.

The programme will be launched at this year's Urban Mission Forum in Sheffield on 21 November.
