

'Sharing our Resources' for evangelisation in England CGfE "Signpost" Resource Paper 1b June 2009

## Evangelisation and Migration CONTINUED from CGfE Resource Paper No 1a

From the 'Churches Coordinating Group for Evangelisation' (CGfE) of Churches Together in England

### Evangelisation and Migration (1b)

This paper follows on from the CGfE Resource Paper No 1a which introduced the topic of evangelisation and migration. Both papers are intended for local church leaders to help congregations answer the question, 'what can our church do about it?' Gathering information from various sources and across all of the church traditions, this is a way of signposting our different resources in the common task of sharing the good news of Jesus Christ. Please pass this paper on and acknowledge the source. It accompanies the CGfE website where there is more information about evangelisation and migration:

<http://www.churches-together.net/Group/Group.aspx?ID=136070>

Each CGfE 'Signpost' Resource Paper is intended to be small enough to send electronically. In Evangelisation and Migration Paper 1a, lots of issues were considered from a conference of evangelism officers which met from across Britain and Ireland under the auspices of the Global Mission Network. This paper considers a number of conferences since that one, and begins with the following framework of agreed principles for action and reflection.

#### Summary of CTBI 'Migration Principles':

Churches Together in Britain and Ireland brought together key network people to draw up a list of actions which they recommended all churches take in respect of a ministry with migrant people. A pdf version of the Executive Summary, which includes Core Values, can be downloaded from: <http://www.ctbi.org.uk/libs/misc/3.doc>

This is a summary of the agreed framework 'Action for Churches to take':

1. Implement an educative process, listening to migrant people
2. Form closer working of support agencies re rights and welfare
3. Offer support to Detention Centre chaplains and visitor groups
4. Intensify advocacy of vulnerable people, especially re injustice
5. Work with migrant organisations, encouraging advocacy and partnerships
6. Offer practical resources of Christian community
7. Involvement in language skills programmes
8. Offer unconditional pastoral care to individuals, families and communities
9. Develop programs and resources to 'get to know each other'

In CGfE we advocate the above and bring our own contribution of evangelisation. The specific dimension we bring is sharing the good news of Jesus Christ. In our evangelisation network we have considered the following principles to add to the above.

#### Principles for evangelisation and migration

1. Many Christians coming to Britain bring a committed and fervent approach to evangelism which can bless and inform all churches.
2. Whilst there are potential problems caused by a dominant host community evangelising a minority community, this should not preclude sensitive evangelisation.
3. Any attempt at evangelisation which does not take seriously an engagement with the culture of the migrant communities is inadequate.
4. A genuine offer of hospitality should always be the first point of meeting with migrant communities.
5. We recognise the importance of working in partnership with those who work in areas of racial justice, community development and exclusivity as the churches serve migrant communities.
6. At the GMN conference (see CGfE Resource Paper 1a) we agreed that the 1989 San Antonio report sets a helpful theological framework: "We cannot point to any other way of salvation than Jesus Christ; at the same time we cannot set limits to the saving power of God."
